

GCS2YA2C ground clamp, accepts steel flange 1/8" to 5/8"; #2 AWG Conductor; 2-hole compression lug included

By Burndy
Catalog # [GCS2YA2C](#)

GCS2YA series of connectors are used to terminate the equipment grounding conductor (EGC) to the tower structure in applications where drilling or hot work permits are either not possible or unwanted. Installation of the clamp requires no power tools and is simple to install. These connectors can also be used in a variety of other applications as it is suitable to bond steel from 1/8" to 5/8" thick.
