ABOUT TALLEY

THE POWER OF EXPERIENCE®

Since 1983, Talley has been a trusted partner to the wired and wireless communications industry, helping customers purchase, design, build, and maintain the networks that keep people, businesses, and communities connected. As The Communications Solution Company®, we combine deep industry expertise with a commitment to delivering the products, technical knowledge, and support our customers need to succeed.

Today, as part of the Rexel USA family of companies, Talley offers customers the advantage of expanded resources, enhanced supply chain capabilities, and the strength of a nationwide distribution network, while continuing to provide the personalized service and responsiveness that have defined our business for more than four decades.

COMPREHENSIVE COMMUNICATIONS SOLUTIONS

End-to-end products, services, and expertise that help carriers, utilities, enterprises, government agencies, and public safety organizations build and maintain reliable communications infrastructure.

OUTSIDE PLANT (OSP) SOLUTIONS

Products and infrastructure for fiber network construction and expansion, including cable, connectivity, enclosures, cabinets, pathways, and related accessories.

BROADBAND SOLUTIONS

Technologies that enable high-speed broadband deployments, helping service providers extend coverage, increase capacity, and enhance subscriber experiences.

ENGINEERING & TECHNICAL SERVICES

Design assistance, product selection guidance, technical expertise, and project support to help customers plan and deploy successful communications projects.

WIRELESS INFRASTRUCTURE SOLUTIONS

Infrastructure for wireless networks, including macro sites, small cells, DAS, private LTE, public safety systems, and emerging wireless technologies.

POWER & CONNECTIVITY SOLUTIONS

Power, backup, grounding, and connectivity products that support the performance, reliability, and continuity of critical infrastructure.

TALLEY USA INTEGRATED BRANDS

Connectronics and CDT Underground customers now benefit from the expanded resources and technical capabilities of Talley. Together, the organizations provide access to a broader portfolio of wireless, fiber, broadband, RF, and outside plant solutions, supported by dedicated expertise, national inventory, and established manufacturer relationships. This combined capability enables customers to streamline sourcing, improve project execution, and support network expansion initiatives with greater efficiency across the communications infrastructure ecosystem.

- RF & Microwave Solutions
- Custom Connectivity Products
- Fiber Infrastructure Solutions
- Wireless & Broadband Networks
- Outside Plant (OSP) Materials
- Underground Infrastructure Products
- Utility Network Solutions
- Engineering & Technical Services
- Project Deployment Support
- Logistics & Supply Chain Services

THE TALLEY DIFFERENCE

At Talley, we do more than supply products. We help customers solve challenges, accelerate deployment timelines, and build reliable communications infrastructure with confidence. By combining industry expertise, trusted manufacturer partnerships, and a broad portfolio of solutions, we support projects from initial planning through deployment and ongoing maintenance.

CUSTOM ORDER STAGING & KITTING

Tell us exactly how you want your orders labeled and packaged and where and when you want them delivered. We'll take care of the rest. Your product logistics just got a whole lot easier. We sort and package your products exactly as you need them. When you need them.

ENGINEERING & DESIGN SERVICES

Our engineering experts provide comprehensive project support, including network design, system schematics, construction drawings, bill of materials development, product selection, and technical consulting to help you plan, deploy, and maintain reliable communications infrastructure.

THIRD PARTY MATERIAL MANAGEMENT

Talley provides management of 3rd Party Materials that help customers improve efficiency, reduce complexity, and better manage project demands. Our team works behind the scenes to coordinate materials, streamline fulfillment, and deliver a seamless experience from planning through deployment.

CAXT CABLE ASSEMBLIES by TALLEY

Talley offers custom cable assemblies manufactured by CAxT®. Built by certified technicians and backed by an ISO certification, each assembly is thoroughly tested for quality and performance. Additional services include certified cable testing, custom kitting, labeling and packaging, and braided, corrugated, and semi-rigid cable solutions.

PROJECT MANAGEMENT

As a distributor, we do more than supply products. We help keep your projects on track from start to finish. Our project management support is designed to simplify coordination, improve visibility, and reduce delays across the supply chain.

TRAINING SERVICES

Talley offers product training, certification programs, and certification prep courses through leading industry partners. These training opportunities help customers strengthen technical expertise and stay ahead of evolving technologies.

SUPPLIER DIVERSITY SPEND

Your Diversity Procurement Solution

Talley, in partnership with Attain Wireless, a certified Woman-Owned Business (WBE), offers a robust tier 2 diversity supplier solution. Together, we ensure compliance with carrier-required minority spend requirements.

COMPLIANCE ASSURANCE
We guide you through the process and provide the necessary reporting to meet large carriers' requirements, maximizing your funds.

DIVERSITY PROCUREMENT
We deliver a comprehensive procurement solution for Andrew, Huber+Suhner, Izzy, JMA, and Southwire products purchased through Talley. Through our partnership with Attain Wireless, a certified Woman-Owned Business (WBE), eligible purchases from these manufacturers can be credited toward your supplier diversity spend requirements. We continue to expand our supplier diversity program by adding new manufacturer partners, giving customers more opportunities to meet procurement goals while simplifying sourcing through a single, trusted partner.

YOUR ONLINE RESOURCE FOR COMMUNICATIONS INFRASTRUCTURE SOLUTIONS

Powerful Online Tools. Real People. Complete Project Support.

Whether you're sourcing materials for a major network deployment or placing a quick replenishment order, Talleycom.com gives you instant access to the products, tools, and account information you need to keep projects moving. Designed for communications professionals, contractors, utilities, public safety agencies, and enterprise customers, our website delivers the speed and convenience you need, backed by the knowledgeable people who have made Talley a trusted industry partner for decades.

From researching products and building material lists to tracking shipments and managing invoices, Talleycom.com simplifies every stage of the purchasing process. And whenever you need assistance, our experienced sales and customer service teams are only a chat, email, or phone call away.

Everything You Need in One Place

Shop Smarter

- Powerful product search
- Mobile-friendly shopping experience
- Streamlined checkout process
- Real-time inventory visibility
- Real-time shipping estimates

Manage Your Projects

- Build and access Bills of Materials (BOMs)
- Track every order from shipment to delivery
- Partial shipments to meet project schedules
- Submit RGA requests online
- Save time with faster project planning

Manage Your Account

- View and print invoices
- Access packing slips anytime
- Pay invoices online
- Review order history and purchasing information
- Access account information 24/7

LIVE CHAT

Real People. Real Expertise.

Our Live Chat isn't powered by bots. It's powered by your favorite local Talley Sales Representative. When you connect through Live Chat, you're chatting directly with experienced Talley sales professionals who know the products, understand the applications, and can help guide your purchasing decisions. It's the same expertise and personalized service you'd receive from your trusted salesperson, delivered in a format that's convenient for you.

No automated responses. No frustrating bot conversations. Just knowledgeable experts providing real-time guidance and helping you find the right solutions quickly and efficiently. Whether you prefer to call, email, or chat, Talley gives you multiple ways to connect with real experts who can answer questions, solve problems, and keep your projects moving forward.

Visit Talleycom.com and discover a smarter way to source your communication solutions.

REXEL

Talley and Rexel combine decades of wireless infrastructure expertise with a nationwide electrical distribution network to deliver a more comprehensive range of communications and electrical solutions. Together, we help customers solve complex challenges, streamline procurement, and accelerate project timelines with trusted manufacturer partnerships, expanded product offerings, technical expertise, and nationwide support. From planning and deployment to ongoing maintenance, Talley and Rexel are committed to providing reliable solutions and exceptional service that help customers build and maintain critical infrastructure with confidence.

ESSENTIAL NETWORK ELEMENTS

SUPPORT STRUCTURE

Housing & Hosting

Support Structure products are the framing components that house or host network equipment.

- Accessory
- Hardware and Consumables
- LMR Components
- Pathway Product
- Rack and Enclosures
- Steel/Wood/Structural Components

SIGNAL TRANSMISSION

Electrical & Optical

Signal Transmission products and accessories transport electrical or optical signals.

- Antennas
- Cable and Wire
- Fiber Optic
- In-Building
- LMR Components
- RF Assembly and Jumper
- RF Component
- RF Connector Adapter and Surge Protection
- Transport Product

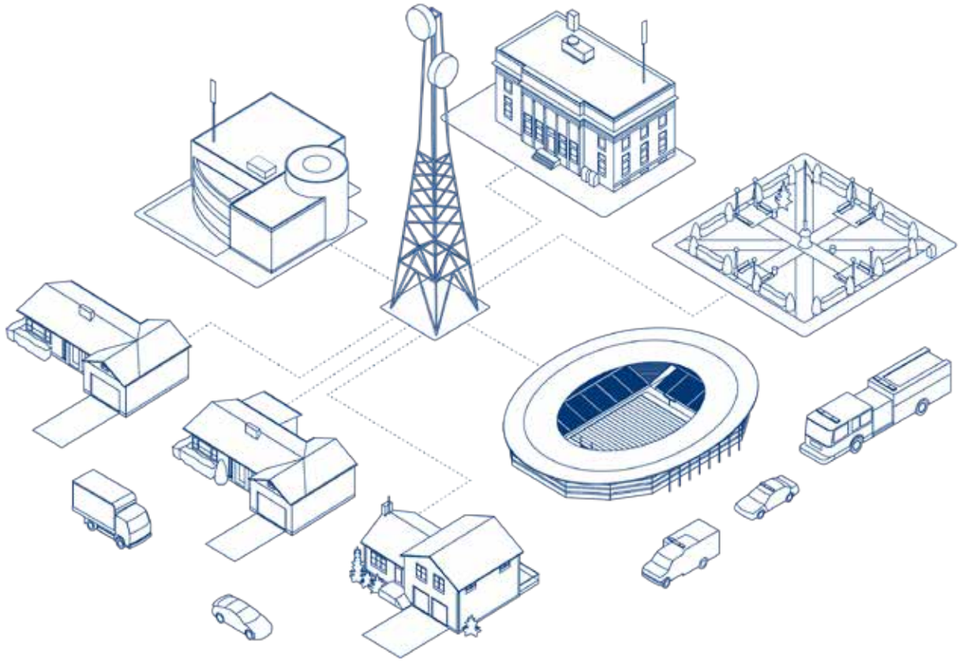
ELECTRICAL POWER & GROUNDING

AC/DC, Power & Protection

Electrical Power and Grounding products provide power to network equipment and help protect infrastructure from electrical faults and surges.

- Cable and Wire
- Grounding Product
- Hardware and Consumables
- Power Product

OUTDOOR WIRELESS NETWORKS



MACRO CELL

Provides wide-area cellular coverage through high-power wireless sites installed on towers and rooftops.

SMALL CELL

Enhances network coverage and capacity in dense, high-traffic areas using low-power wireless nodes.

LAND MOBILE RADIO (LMR)

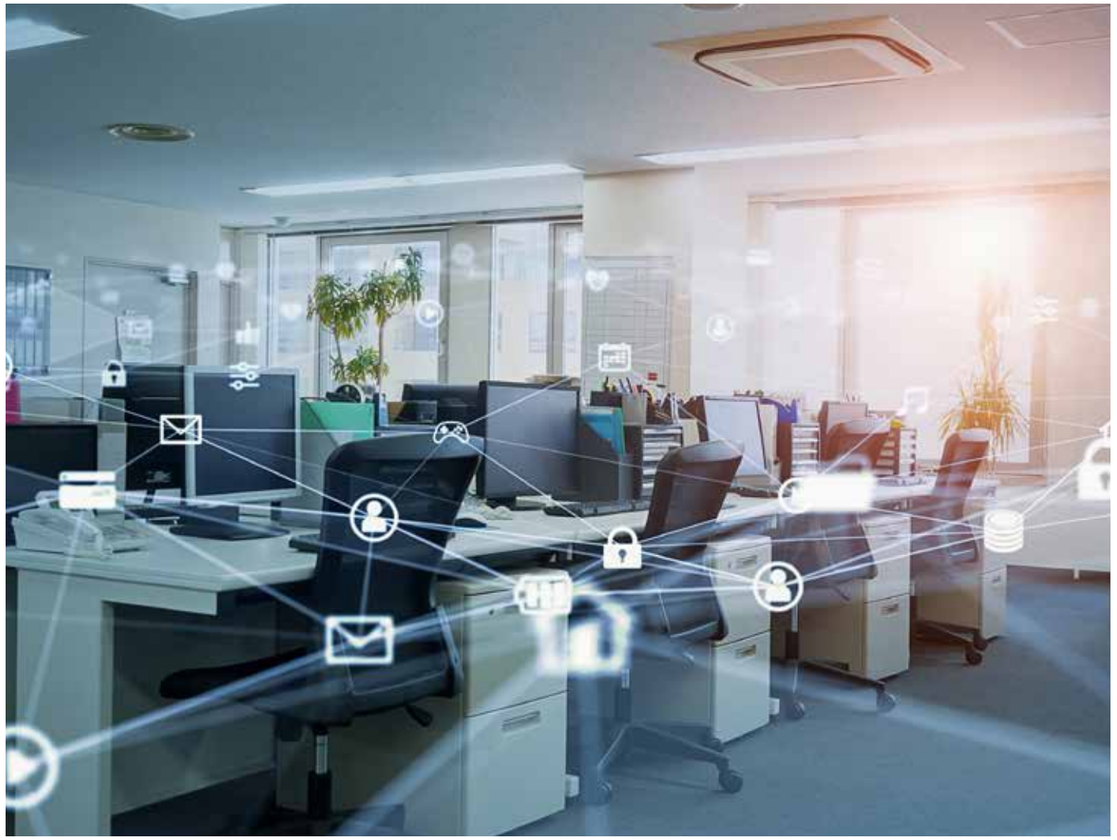
Delivers mission-critical voice communications for public safety, utilities, transportation, and industrial operations.

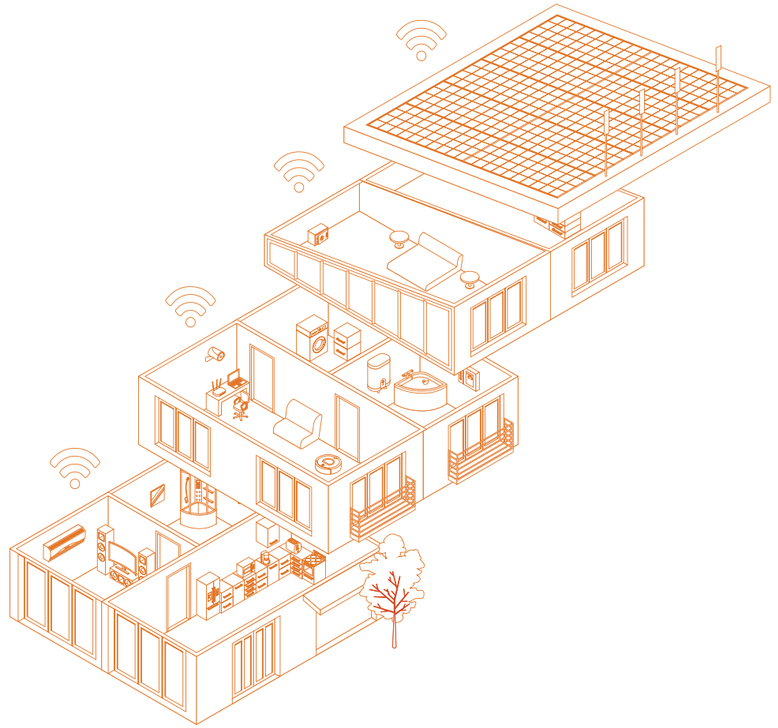
MICROWAVE

Provides high-capacity point-to-point and point-to-multi-point wireless connectivity for broadband access, network backhaul, and communications between fixed locations. Combined with Connectronics' engineering and design capabilities, Talley helps customers develop reliable, scalable microwave networks from concept through deployment.

CONNECTRONICS
A TALLEY COMPANY

INDOOR WIRELESS NETWORKS





LAND MOBILE RADIO (LMR)

Extends reliable in-building radio communications for public safety, utilities, and enterprise users through dedicated wireless coverage systems.

PUBLIC SAFETY

Provides code-compliant in-building communication systems that ensure first responders maintain reliable radio coverage during emergencies.

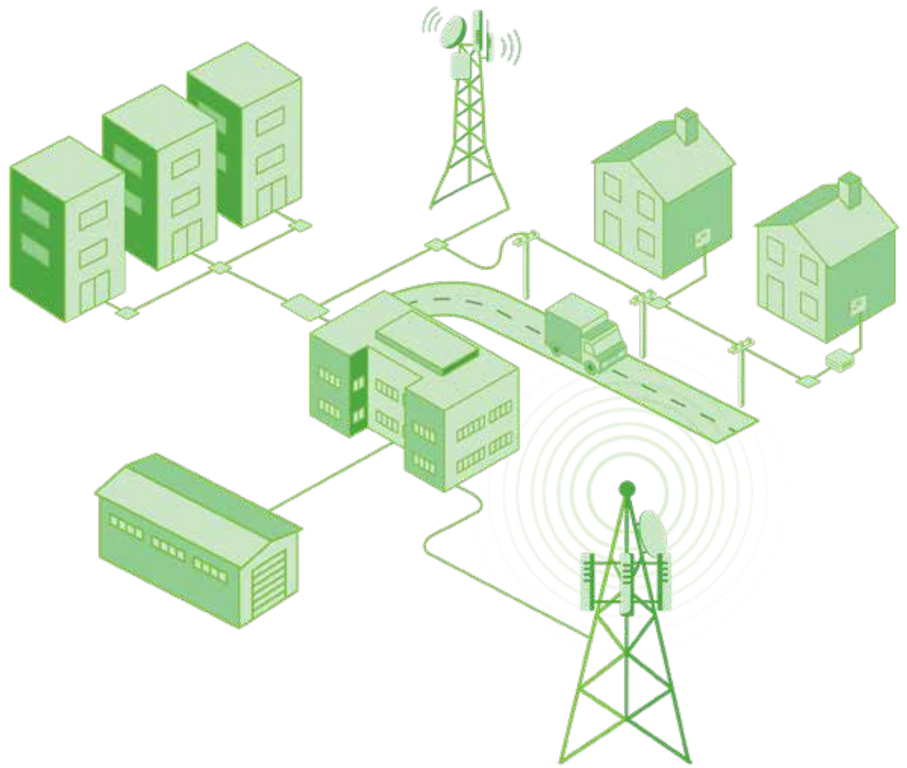
CELLULAR / ENTERPRISE

Enhances indoor cellular coverage and capacity by distributing wireless signals throughout buildings, venues, and campuses.

CONVERGED DAS

Combines cellular and public safety communications onto a shared infrastructure, delivering multiple wireless services through a single distributed antenna system.

OUTDOOR WIRELINE NETWORKS: OUTSIDE PLANT (OSP)



AERIAL CABLE PLANT

Provides wireline network connectivity through cables installed on poles or overhead structures, enabling efficient and accessible broadband deployment.

BURIED CABLE PLANT

Provides protected underground wireline infrastructure through direct burial or shallow conduit systems with handholes for access, repair, and network flexibility.

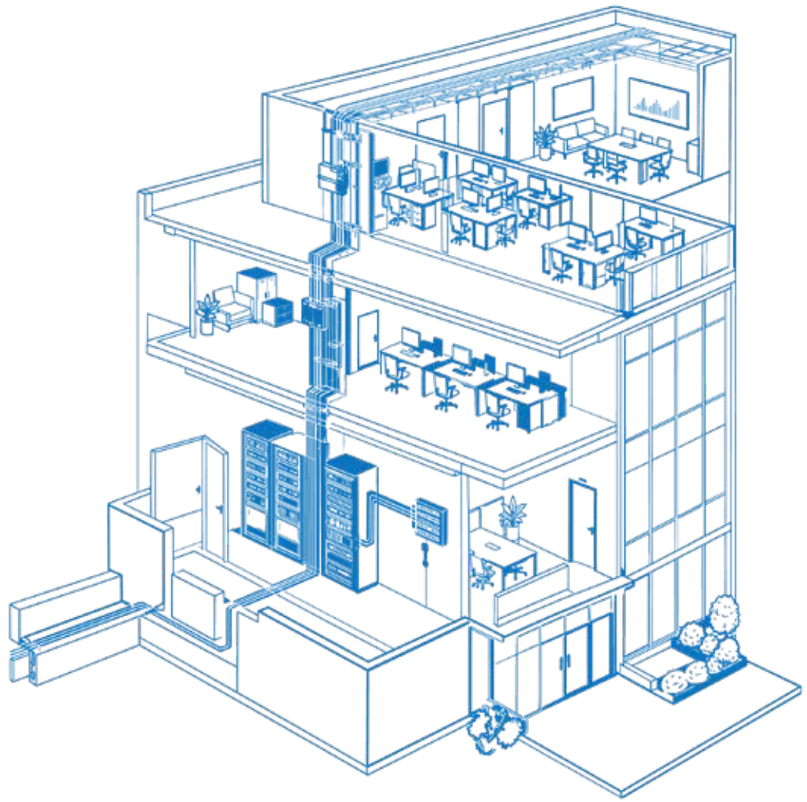
Now backed by the specialized expertise of CDT Underground, we can help deliver comprehensive buried plant solutions, products, and technical support for reliable broadband and utility network deployments.

CDT Underground LLC
A TALLEY COMPANY

UNDERGROUND CABLE PLANT

Supports high-capacity, protected network pathways using conduit systems accessed via manholes, ideal for dense urban and long-term scalable infrastructure deployments.

INDOOR WIRELINE NETWORKS: INSIDE PLANT (ISP)



ENTERPRISE NETWORKS	Provides structured in-building wired connectivity that supports business operations, internal communications, and IT infrastructure across commercial environments.
TELECOM ISP	Supports carrier-grade inside plant infrastructure within central office environments, enabling routing, switching, and aggregation of network traffic across telecom networks.
DATA CENTER	Delivers high-density, high-performance wired infrastructure that supports critical data processing, storage, and connectivity across colocation, hyperscale, and edge computing environments.
